CAREER SUMMARY:

Dedicated and results-oriented Civil Engineer with over 10 years of experience in the successful delivery of high-profile infrastructure and residential construction projects. Proven track record in leadership and technical management, having contributed to landmark developments such as the **Jamuna Railway Bridge** and the **Dhaka Metro Rail Project**.

Expertise spans the full project lifecycle, including **Project Management, Quality Control (QC), Planning, and Quantity Surveying (QS)**. Skilled in coordinating multidisciplinary teams and maintaining rigorous compliance with safety standards and project specifications.

EMPLOYMENT HISTORY:

Position: Project Manager (05/04/2025 to Continue)

Company: Spectra International Ltd.

Contractor: IHI-SMCC JV

Client: Bangladesh Railway

Consultant: OCG-Chodai-DDC in Association with ACE

Address: Sirajganj, Bangladesh

Project: Jamuna Railway Bridge Construction Project

Responsibilities:

- Lead the planning and execution of project activities, ensuring alignment with safety standards and timelines.
- Coordinate between the engineering design team, contractors, and consultants to maintain technical specifications.
- Preside over technical meetings and negotiations with clients and stakeholders to ensure smooth project delivery.
- Direct the inspection of construction works, including Material on Site (MOS), rebar work, brick masonry, and structural components, Architectural Works, Electrical & Plumbing Works.
- Oversee monitoring for Cast-in-Situ bored piling work and compressive strength testing for concrete and grout.
- Write & Review method statements and shop drawings as per work requirements.
- Develop and manage comprehensive daily, weekly, and monthly work programs to maintain site progress as per the master schedule.
- Prepare and submit Requests for Inspection (RFI) to the consultant's office and facilitate site inspections.
- Organize technical support for site teams and manage the allocation of resources and equipment.
- Prepare detailed and accurate quantity take-offs and Bill of Quantities (BOQ) from structural and architectural drawings.
- Develop cost estimates for project variations and document scope deviations according to contract rates.
- Manage the preparation of Interim Payment Applications (IPA) and analyze sub-contractor tenders for cost-efficiency.

Position: QC Engineer (01/02/2022 to 31/03/2024)
Company: JFE Engineering Corporation (OTJ JV)
Client: Bangladesh Railway
Consultant: OCG-Chodai-DDC in Association with ACE
Address: Tangail, Bangladesh
Project: Jamuna Railway Bridge Construction Project

Responsibilities:

- Conducted comprehensive inspections of bridge superstructure elements, including steel truss member assembly, erection, and bearing installations.
- Monitored critical technical tests such as Ultrasonic testing for welding, PDA tests for pile bearing capacity, and pull-out tests for expansion bolts.
- Supervised precision tasks including bolt tightening, non-shrinkage grouting, rebar scanning, and core cutting.
- Managed spray painting inspections, including DFT (Dry Film Thickness) checking and damage repair oversight to ensure long-term structural protection.
- Prepared and reviewed method statements and shop drawings to ensure all site activities aligned with engineering requirements.
- Developed daily, weekly, and monthly work programs while reporting daily site activities to maintain the project schedule.
- Acted as a primary liaison between the consultant, client, and sub-contractors to ensure adherence to work specifications.
- Facilitated the RFI (Request for Inspection) process, including preparation, submission, and assisting consultants during formal site inspections.
- Assisted in the calibration testing of STB bolt tightening machinery to maintain equipment accuracy and compliance.

Position: Sub-Assistant Engineer (09/02/2019 to 28/01/2022)
Company: Tekken-Abdul Monem Ltd.-Abenikko JV
Client: Dhaka Mass Transit Development Company Ltd.(DMTCL)
Consultant: NKDM Association
Address: Dhaka, Bangladesh
Project: Dhaka Metro Rail Project, Line-6

Responsibilities:

- Monitored the project site to ensure station building construction strictly followed architectural drawings, method statements, and consultant instructions.
- Supervised specialized piling activities, including Cast-in-Situ bored piling, steel screw pipe piling, and the mobilization/driving of sheet pile arrangements.
- Managed the fabrication and installation of formwork and rebar for pile caps, columns, beams, and slabs, overseeing casting operations using Ready-Mix Concrete (RMC).
- Directed specialized work for the main line, including pier body, pier head, and portal construction, while also managing concrete and non-shrinkage grout repair work.
- Led the coordination of all site-level construction and earthwork activities to maintain project momentum.
- Supervised complex utility relocation involving major authorities (WASA, DNCC, DPDC, PDB, Titas, and Banglalink).
- Monitored road reinstatement and construction for both flexible and rigid pavement systems.
- Developed required work programs and maintained professional communication with consultants and engineers to ensure seamless workflow and adherence to schedules.
- Oversaw the initial architectural work required for the metro station buildings.

Position: Project Engineer (01/11/2017 to 31/12/2018)

Company: Best-tech Builders & Construction Ltd.

Address: Dhaka, Bangladesh

Project: 7 Storied Residential Building Project

Responsibilities:

- Monitored all structural phases, including site layout, piling, excavation, pile caps, grade beams, columns, beams, slabs, and staircases.
- Supervised architectural tasks such as brickwork, plastering, tile installation, painting, and the fitting of grills and doors.
- Ensured electrical and plumbing installations were executed according to the approved designs.
- Prepared detailed budgets, Bill of Quantities (BOQ), and project work plans.
- Assisted the Project Manager with the planning, execution, and preparation of technical reports and proposals.
- Coordinated project activities with the engineering design team and attended technical meetings to negotiate with clients.
- Conducted regular site visits to monitor construction progress and provided detailed reporting on site activities.

Position: Site Engineer (29/01/2015 to 31/10/2017)

Company: Private

Address: Dhaka, Bangladesh

Project: 8 Storied residential building project

Responsibilities:

- Directed all phases of structural work, including site layout, piling, and the construction of pile caps, columns, grade beams, beams, and slabs.
- Supervised essential architectural elements such as brickwork, plastering, painting, and tile installation.
- Managed the installation and fitting of windows, grills, and doors to ensure project completion standards.
- Oversee the implementation of electrical and plumbing systems to verify compliance with building requirements.
- Calculated material requirements and prepared the Bill of Quantities (BOQ) for various project phases.
- Developed project timelines and conducted regular monitoring to ensure work progressed according to the established schedule.

EDUCATIONAL QULIFICATION:

- **BSc in Civil Engineering**
Dhaka International University
Session: 2014-15, Passing Year: 2018
Result: CGPA-2.79 Out of 4.00
- **Diploma in Civil Engineering**
Bogra Polytechnic Institute
Session: 2010-11, Passing Year: 2014
Result: CGPA-2.78 Out of 4.00
- **Secondary School Certificate**
Dhukuria Bera High School
Session: 2009-10. Passing Year: 2010
Board: Rajshahi, Group: Business studies
Result: GPA-4.50 Out of 5.00
